nuc ppl must act regardless of their views. cpsu cc called on socialist

arms international in madrid to redouble efforts to save humanity from

W. Eur <sup>race</sup> nuclear holocaust. soviet scientists say there is no

U.K. effective defense, and that key problem is how to avoid another

step in nuclear arms race in europe. volgograd public rally points

out that for third time europe is being turned into detonator of

world war, and goes on to call for joining of hands as at greenham 2

W. Eur in geneva, parallel with talks on nuclear arms limitation.

Start <sup>disarm</sup> <sup>TALK</sup> USSR has proposed reduction of strategic arms by 25 percent from

U.S. <sup>Nato</sup> because it was threatened with deployment of mx and trident missiles.

W. Eur only acceptable basis for agmt is comprehensive approach

accounting for all types of strategic arms. if usa and nato

War criminals

31 topical problems of international life: (vladimir vesenskiy), soviet journalist who worked in latam for 10 years, on refuge in latam enjoyed by barbie and other war criminals. he once met barbie and schwend in peru in 1972, and his colleague valeriy volkov once flew in same aircraft as third notorious nazi, rauch. of these three, only barbie even made any pretence of concealing his identity and he merely took his wife's maiden name. schwend boasted about his wartime scheme to undermine british currency. other lesser war criminals gathered round more eminent ones; they celebrated hitler's birthday, propagated their anticommunist views to young people, founded fascist parties and were implicated in murder of progressive activists. Journalists got on barbie's trail in 1972 after murder of industrialist rossi in house near to schwend's residence. Barbie fled to bolivia and was implicated in plot to overthrow general torres' regime and in dealings in arms and drugs. rauched helped pinopchet regime set up concentration camps in chile.
